TPR PLUS

CAN BUS

The TPR, now featuring IP65 protection, ensures durability and reliability even in the most demanding environments. Maximum configurability and versatility thanks to the innovative Touch Push Rotate system. Available with RGB or white LEDs, dimmable backlighting, and a wide selection of knobs, TPR PLUS perfectly adapts to any application requirement, including cableless solutions.

TPR PLUS combines the precision of an encoder with the practicality of a push button, delivering intuitive and reliable control in a single compact device

TPR PLUS provides fully customizable configuration: select from various knob types, RGB or white LEDs, and backlighting options to perfectly suit any operational requirement

TPR PLUS is designed to withstand the most demanding environments, thanks to its IP65 protection rating. Reliability and durability are guaranteed, even under the harshest conditions, with maximum versatility for applications on cableless machines

TECHNICAL SPECIFICATIONS

- Power supply: 12 - 24V DC
- Connector: MOLEX 4 pins or DEUTSCH 4 pins
- Sealing degree: IP65
- Fixing: springs
- RGB LED or white
- Dimmable backlight
- Operating temperature: - 40° C ÷ + 80° C
- EMC - ECE R10 certification
